Subject: Antibiotics in animal feed
Auto forwarded by a Rule

Dear Commissioner Henney-

The purpose of this E-mail message is to inform you that I am greatly concerned that our meat supply is being contaminated by antibiotics routinely fed to cattle, hogs and poultry. Equally importantly, I am concerned that these antibiotics create resistant bacteria which are dangerous, even fatal, to humans.

I cannot even begin to express my incredulity at how short-sighted we are being in reference to this life-threatening issue. I urge you (in fact, I beg you) to ban antibiotics from animal feed as a means of saving lives before it is too late.

Thank you.

Regards,
Suzanne Lorrin
